

Get to Know VisualDx

What is VisualDx?

It is a clinical decision support tool that enhances proficiency in:

- Pattern recognition
- Differential diagnosis
- Diagnostic reasoning
- Cultural competency

Sign in with SSO

1. Scan the QR code above or visit <https://visualdx.com/visualdx/?sso=UW> to login with SSO.
2. Enter your network credentials to login. You should be brought into VisualDx without the need for an additional username or password.
3. If you do not already have a VisualDx personal account, you will receive an email that your account has been automatically created and will allow you to set your password to access the mobile app. If you previously had a personal account using your institutional email, then you can skip the remaining steps and use the mobile app as you have been.
4. Download the VisualDx mobile app from the Apple Store or Google Play Store.
5. On your device, locate the VisualDx app and login with the username and password created in Step 3.

Congratulations, you're ready to go!

Features

- 50,000 medical images across all skin types to aid diagnosis recognition.
- Handbook-length entries across general medicine including a Synopsis, What to Look For, Differential Diagnosis, Therapy, and more.
- A mobile quiz built to grow pattern-recognition skills.
- Efficiently search by chief complaint, diagnosis, medication, or travel location.

LearnDerm™

POWERED BY visualDx

Build a strong dermatology foundation through 6 interactive lessons. Quiz yourself at the end of each lesson to see what you've learned.

LearnDerm.com

The Skin Exam

Lesion Identification

Body Location & Distribution

Recognizing Configurations

Morphologic Variation

Atopic Dermatitis

What's the Diagnosis?

Weekly Quiz in the Mobile App

Ask yourself "What's the Diagnosis?" with the weekly quiz in the mobile app's Trending feed. Dive into a brief case with a photo and multiple-choice questions. Build a custom differential to guide you through solving the case!

Case Study

A 9-year-old boy with a history of allergic rhinitis and asthma presented for evaluation of a rash that had been recurring intermittently for the preceding 2 years. He noted that the rash was not itchy or painful. On examination, multiple discrete, follicularly-based, fine, scaly, tiny papules were seen on the elbows and knees. The patient had no systemic symptoms and appeared well otherwise.

- A. Acrokeratosis verruciformis
- B. Folliculitis
- C. Juvenile pityriasis rubra pilaris
- D. Lichen spinulosus

Quick Start for New Users

DIAGNOSIS LOOKUP

Search for a specific diagnosis to go straight to clinical information, images, and Sympticons™.

BUILD A DIFFERENTIAL

Search by chief complaint, medication, or travel location to start building a custom differential for your patient.

RECENT ACTIVITY

View all your recently searched diagnoses and custom-built differentials.

CME

Eligible users can earn .5 *AMA PRA Category 1* credit with each activity in VisualDx. See and claim your credits here.*

SAVED ITEMS

Save a list of diagnoses you reference frequently.

NOTE: You must be signed in with your personal account to access the items under **My VisualDx**.

DIFFERENTIAL RESULTS

6 tabs are used to display results: Consider 1st, Uncommon, Emergencies, Infectious, Drug Induced, and View All.

Skin of Color Toggle

Switch the differential results from **all skin types** to **skin of color** to display images that best match your patient.

Differential Builder Features

CHIEF COMPLAINT

The chief complaint, entered in the search bar on the VisualDx homepage, is the main symptom that brings your patient to see you.

ENTER FINDINGS

The differential builder questions are tailored for each chief complaint. For example, “rash” will bring up questions about lesions, while “vomiting” will bring up questions about vitals and a patient’s physical exam. Select the appropriate symptoms experienced by your patient.

PATIENT INFO

Specify patient age and sex to ensure that diagnoses are tailored to your patient.

EDIT FINDINGS

As you enter a patient’s symptoms (or findings), they appear here. To make a finding required in your differential results, click the circle on the left to make it turn green. To remove a finding, click the “x” on the right.
